**LISBON CENTRE
OF EXECUTIONS**

Monarchists Institute Desperate Reprisal Measures to Break Revolution in Portugal.

Madrid, Feb. 4.—The execution of the assassins in connection with the assassination of the king and queen, took place in Utrera today. Scores have been arrested, while hundreds of refugees are pouring across the Spanish frontier. Every indication is that ex-Premier Franco is virtual dictator. Serious outbreaks and shooting are reported from Lisbon. Many revolutionists armed last night and attempted to subvert the Fourth Regiment stationed at the arsenal, but the troops were alerted and the attempt was defeated on a score of the agitators.

His Majesty's Ally and Friend.

London, Feb. 4.—Many rumors are current concerning the sending of British troops to Gibraltar and Vigo respectively.

Lisbon, Feb. 4.—In view of the assassination and the consequent unrest. It had been partly fixed programme that the British fleet should visit Lisbon. This plan, however, has been dropped and it is now presumed that there is a misunderstanding, and only one flagship and one cruiser will go to Lisbon, and the rest of the fleet will remain at Vigo. The Government announced today that they would move in the House of Commons and in the House of Lords tomorrow an address to King Edward, expressing the indignation at the assassination of His Majesty's "ally and friend."

Martial Law Proclaimed.
Madrid, Feb. 4.—El Mundo this afternoon prints a despatch from Lisbon,

to the effect that the new premier has been elected by the vote of the legislative assembly, and that the political disorders or an uprising, Constitutional guarantees have been suspended and martial law has been proclaimed. The organization of the revolution is being carried out in the most rapid manner possible, and the revolutionaries are being taken to African prisons. The revolutionary movement is now progressing though in Africa the secret is being kept. The editor of an important Republican paper, **Gordara, Anarchist, implicated.**

Paris, Feb. 19. From statements made by the secret police and Portuguese referees here, it seems something was known of the coming of the revolutionaries, and **Gordara**, who reported to have been one of the assassins has an international reputation as a dangerous anarchist and a well known revolutionary. It is reported he had been concerned directly or indirectly in the attempt to

Censorship is Complete.—Madrid, Feb. 5.—El Pais tonight declares the Portuguese situation much more serious than is admitted. Rumors from different places state there has been an uprising in some of the large towns. Owing to the censorship, it is impossible to confirm anything as only approved news is allowed through, and this of a non-constructive nature. The dispatches tell of the constant firing of shot, but there are ominously silent concerning

Private advice says that all the gulls are in the city, and that the police are not so much augmented by the police who are invading houses of men of prominence and carrying them to prison. The press is not so much as usual. The only events, only the most colorful accounts of the tragedy being permitted in Portugal.

Disorders in Lisbon.

Paris, Feb. 4.—Among the alarmist reports received here to-night from Portugal, is one which says that the disorders are spreading into Spain. It is also reported that serious disorders have broken out in Lisbon, and at the same time the sending of the telegrams from Madrid giving the direction of the barracks in the west of Lisbon. Nothing is confirmed, but

Something Yet Untold.—London, Feb. 4.—The Mail displays the following from its correspondents: "The British ambassador has officially comments that this is significant that there is something to conceal that is yet untold, and the truth will be told by him. The British truth has been smuggered across the Spanish border."

Final Announcement Made.—London, Feb. 4.—The formal news of the tragedy, and that the new king had charged Admiral Du Amaril with the formation of a new ministry, are telegraphed by Premier Franco, Monday at noon.

King Heavily Insured.—London, Feb. 4.—It became known

Two hundred thousand dollars life insurance with a prominent British insurance company.

Revolutionists Executed.

Madrid, Spain, Feb. 4.—The central committee of the revolution has sent news despatches from Lisbon, but the news reached here of the imprisonment of hundreds of revolutionists throughout Portugal and of the execution by shooting of many ring-leaders at Oporto, when other information shows that former Premier Franco, in fear of his life, has either left the country or is in hiding. The new ministry has not yet been announced.

PRESIDENT ROOSEVELT IS FOR THE PEOPLE

He Replies to Critics of Administration and Advocates an Act Providing for Aid of Injured Government Employees.

Washington, Feb. 3.—In a special message sent to congress today President Roosevelt replies to recent attacks on the policy of the present administration in regard to the control of great corporations and suggesting legislation for the more adequate control by the government of interstate commerce. The message says in part: "Much is said in these attacks upon the policy of the present administration about the rights of innocent stockholders. The stockholder is not in innocent who innocently purchases stock in a corporation whose methods and management he knows to be corrupt. And stockholders are bound to try to secure honest management or else are stopped from complaining about the proceedings the government finds necessary in order to compel the corporation to obey the law. There has been in the past grave wrong done innocent stockholders by over capitalization, stock watering, stock jobbing, stock manipulation. This we have sought to prevent, first, by exposing the thing done and punishing the offender when any existing law had been violated, second by recommending the passage of laws which would make unlawful similar practices for the future. The public, then, lawyers and others who loudly proclaim their sympathy for the innocent stockholder when a great law-defying corporation is punished, are the first to protest with frantic vehemence against all efforts by law to put a stop to the practices which are the real and ultimate sources of the damage alike to the stockholder and the public. The apologists of successful dishonesty always disclaim against any effort to punish or prevent, on the ground that any such effort will unsettle business. It is they who by their acts have unsettled business and the very men raising this cry spend hundreds of thousands of dollars in securing by press, editorial, book or otherwise the defense by misstatement of what they have done and yet when public servants correct their misstatements by telling the truth, they disclaim against them for breaking silence, lest values be depreciated. They have hurt honest business men, honest workmen, honest farmers and now they clamor against the truth being told."

President Roosevelt advocates an immediate re-enactment of the employers' liability law recently denied unconstitutional limiting its scope so that it shall apply only to the class of cases to which the Supreme court says it can constitutionally apply. He also advises that an act be passed providing for the compensation by the government of all employees injured while in the government service.

WILL NOT REMOVE EMBARGO.

British Opinion Says Such a Thing Would be Detrimental.

Montreal, Feb. 3.—A special London cable says the movement among 200 members of parliament here to remove the embargo on Canadian cattle is particularly checked by the assertion of the Meat Trades Journal, the organ of the trade, that Canadians themselves realize that their best interests are in fat cattle trade, as carried on under the embargo.

John Sullivan, leading British dealer in Canadian cattle says the Northwest ranch cattle which comprise fully half of Canada's shipments are totally unsuited for these purposes. Canadian shippers of these cattle and of heavy fat distillery cattle find that they make more money under the requirements of slaughter at Birkenhead than if a mere bag of bones were admitted.

Sullivan admits that the embargo is a pure piece of protection. The allegation of disease is a flagrant deception, but nevertheless it works so well for Canada that if the act were repealed Canadian shippers would be more than the estimated number of right of free entry.

Toronto's Population.

Toronto, February 3.—The estimated population of the city of Toronto is 367,726, according to the publishers of the city directory. This is 31,323 more than the estimated number of people in Toronto at the end of 1906. The increase is the largest in any year. The directory contains by actual count 129,355 individual names, exclusive of firm names, corporations, etc., an increase of 1,699 over the issue of 1907. In arriving at the estimated population of 367,726 the publishers of the directory have multiplied the number of individual names by two and three-quarters. The number of buildings of all kinds in the city is 57,021, an increase of 4,300. Of these 2,003 are shown vacant, as compared with 1,526 in the last edition. The number of vacant buildings include those in course of erection.

FIVE SHILLINGS WEEKLY.

Aquatic's Unemployed Scheme Means Annual Expenditure of \$65,000.000.

London, Feb. 4.—Participating in the debate in the House of Commons last night, on the question of the unemployed, John Burns, president of the local government board and Labor leader in the House, denounced the unscientific distribution of relief, philanthropic and private charity, which he declared was usually misapplied and diverted to the wrong persons. He told one of his own experiences recently when after an official function he joined two thousand of the unemployed at the Victoria Embankment.

"I was in my coat-dress," he said, "but pulled my bowler hat over my eyes and looked miserable and I got my bowl of soup and bunch of bread."

Mr. Burns moved the rejection of an amendment to the address, regarding that the King's speech did not recommend legislation dealing with the unemployed question, and the amendment was defeated by 195 to 146.

An incidental remark made by Mr. Burns during his speech that the scheme of Herbert H. Asquith, the chancellor of the exchequer, for old age pensions would provide for a million people, attracted much attention afterwards. Nothing hitherto had leaked out with reference to the intentions of the government, but it was generally assumed that it would propose a pension of five shillings weekly in certain cases. H. H. Asquith's scheme would entail the annual expenditure of \$60,000,000.

Info Receivers' Hands.

Detroit, Mich., Feb. 3.—The Detroit Toledo & Dayton Railway went into the hands of receivers yesterday on application of the Knickerbocker Trust Company of New York. The trust company alleged that the railway had defaulted on a coupon of \$100,000.000 of bonds. District Judge Swan, of the federal court, appointed Receiver G. B. Newell, vice president and general manager of the road and Benjamin Warren, of Detroit, the railroad's general counsel.

It is Claimed Latter Have Not Lived Up to Act of Congress of 1890 Providing Against Unlawful Restraint of Trade and Monopoly.

Washington, Feb. 3.—United States Attorney, Hiram E. Booth, acting under the direction of the attorney general, today filed in the district court of the United States for the district of Utah, sitting at Salt Lake City, a petition or bill in equity in which the United States is made complainant, and the Union Pacific Railroad Company, the Oregon Line R.R. Co., and Oregon R.R. and Navigation Co., the San Pedro Los Angeles and Salt Lake Railway Co., the Alhambra, Topoka & Santa Fe, the Southern Pacific, the Northern Pacific, Great Northern, Farmers Loan & Trust Co., E. The bill sets out in detail the several agreements and operations by which the several defendants, Harriman, Schiff, Kahn, Stillman, Rogers, Frick and Clark, at various times since January 1, 1891, are alleged to have secured for themselves and others the management and control of the various steamship lines, and to have ever since operated them in restraint of trade and commerce among the states and with foreign nations, in violation of the act of congress, approved July 2, 1890, entitled, "An act to protect trade and commerce against unlawful restraints and monopolies."

That the individual defendants named and their associate stockholders, and each and every person conspiring or conspiring with them, and their trustees, agents and assignees, present or future, be enjoined from doing any and every act or thing in furtherance of the combination or conspiracy, or tending to complete control or partial control of said commerce of railways by the Union Pacific Railway Co., the Oregon Stock Line R.R.
